

Don't  
Know  
Knowing  
is  
Knowing

*Zen Master Seung Sahn*

Knowing is originally knowing Don't Know  
Don't Know knowing is knowing  
Today we transfer this Don't Know  
Four times five is twenty

1. What is "Don't Know"?
2. "Know" and "Don't Know," are they one or two?
3. "Four times five is twenty." What does this mean?

*Commentary:*

Knowing Don't Know—just that is seeing true nature. Human beings know too much, and are thus hindered by what they know. As the saying goes, "Many people all over the world know, but how many truly understand?" If you can put down your views, opinions, and understanding, then the truth just appears right in front of you. ❀
